-  Contract Placements
-  Temporary Assignments
-  Contract to Permanent

JOB SEEKERS

We connect, advise and represent top Australian and Global professionals with the best Building Construction, Civil & Transport Engineering, Renewable Energy and Mining Infrastructure companies across Australia.

EMPLOYERS

We're industry professionals who provide total talent solutions by helping companies source premium talent for their projects, in Australia and internationally. We build great teams.

AUSTRALIA IS BUILDING BIG!

Australia is undergoing a sustained infrastructure boom driven by strong population growth, energy transition, and long-term government planning. With more than \$200 billion in active and committed public and private investment, the scale and scope of projects under delivery is creating unprecedented demand for skilled Construction and Engineering professionals.

Key drivers of this national infrastructure surge include:

- Major Transport and Civil Upgrades across road, rail, and smart city systems
- Renewable Energy Development including wind, solar, battery storage, and hydrogen projects
- Water and Hydro Infrastructure in response to climate and population needs
- Mining Infrastructure Expansion to support resource demand and export capacity
- Social Infrastructure such as healthcare, education, and housing
- Defence Infrastructure programs in the Northern Territory and regional Australia
- The lead-up to the Brisbane 2032 Olympic and Paralympic Games, which has triggered new stadiums, athlete accommodation, and precinct-wide upgrades

BrightSide Consultants specialises in the recruitment of top mid to senior-level white-collar professionals, with expertise & focus on the **Building Construction, Civil & Transport Engineering, Renewable Energy and Mining Infrastructure** sectors.

OUR LEADERSHIP TEAM

Meet Gearóid Considine, the founder and driving force behind BrightSide Consultants. A qualified and experienced industry professional with broad experience in various projects and positions.

Gearóid Considine BEng, MBS **FOUNDER/MANAGING DIRECTOR**

Gearoid is a Civil Engineer BEng and 15 years experience in international project management across diverse regions including Australia, the UAE, Hong Kong, Ireland, and the UK. His expertise lies within design and construction management, particularly in high-rise structures, commercial and residential developments, bridges, metro rail stations, infrastructure, and tunnelling projects.

Gearoid takes pride in his role as a mentor, advocate, and presenter for talented professionals, connecting them with ideal roles, projects, and companies, fostering mutually beneficial and enduring partnerships. His approach centers around placing exceptional talent in positions that align not only with their skills but also with the culture and values of the organisation, underpinned by a commitment to knowledge, professionalism, and integrity.
